

Rail Shipments

Rail Waybill Data, 1988-1992

Abstract

This database contains public-use, aggregate, non-confidential rail shipment data such as origin and destination points, type of commodity, number of cars, tons, revenue, length of haul, participating railroads, and interchange locations. The data are based on the Carload Waybill Sample, which is a proprietary sample of freight waybills that were submitted to the Interstate Commerce Commission (now the Surface Transportation Board) by Class I Railroads.
